Summary

Open Source Developer with expertise in JavaScript, ReactJS, React Native, and UI development. Delivered scalable solutions, including a Figma-to-HTML plugin that streamlined design-to-code workflows. Passionate about building user-centric applications with modern front-end technologies.

Education

Chitkara University, Rajpura   Punjab, India
B.E in Computer Science & Engineering, CGPA: 9.73/10   August 2019 – June 2023

Technical Skills

- **Languages:** JavaScript, TypeScript, Java, HTML, CSS
- **Frameworks:** ReactJS, ReactNative, Node.js
- **UI/Design Frameworks:** Tailwind CSS, Bootstrap
- **Software:** Figma, Git

Experience

GeekyAnts India Pvt. Ltd.

Software Engineer | ReactJS, ReactNative, JavaScript and Figma   August 2023 – October 2024

- **Built a Figma plugin** that automated design-to-HTML conversion, cutting manual coding time significantly.
- Partnered with design teams in creating more than **100 interactive screens** via **gluestack**, streamlining front-end processes which led to a smoother integration for both iOS and Android applications.
- Built a comprehensive website for **gluestack-ui v2**, showcasing customizable UI components to improve developer usability and adoption.

Software Engineer Intern | ReactNative, Laravel, PHP, MySQL   May 2022 – July 2023

- Developed a React Native mobile app, achieving 95% functionality parity across iOS and Android platforms.
- Designed and maintained the **Academy Portal**, using **Laravel** and **PHP**, improving collaboration and user engagement.
- Created **responsive layouts** to optimize user experience across devices.

Projects

Figma to HTML Code Plugin Tool | Figma, Node, JavaScript
- Developed a tool that converts **Figma designs** into responsive HTML in under a minute, compatible with major email clients (e.g. **Outlook**, **Gmail**).
- Ensured compatibility with **95% of email clients**, reducing layout inconsistencies and improving user satisfaction.

Instagram Clone and Disney Hotstar Clone | ReactNative , Firebase
- Developed **cross-platform mobile application clones** for iOS and Android using **React Native**.
- Integrated **Firebase** for secure user authentication, including sign-up and sign-in features.

Academy Portal | Laravel, PHP, MySQL
- Built a responsive, feature-rich web application for the **Academy Portal**, enabling tracking of progress and user engagement.
- Utilized **Laravel** and **PHP** to ensure robust backend performance and scalability.

Achievements

Client Acquisition and Project Delivery
- Successfully **acquired a new client** for the company by initiating and delivering a **single-handed Proof of Concept (POC)**, which was accepted by the client.
